**CRIME, TRAUMA &
BIO-HAZARD
DECONTAMINATION
SERVICE**

Carlette Anderson
Owner/Operator

Jeff Hickson
Field Supervisor

Serving all of
Arkansas, Missouri, Oklahoma
& surrounding states.

“Committed to Helping People”

ARKDECON specializes in decontamination techniques, which involve blood, bodily fluids and bio-hazard threats. We are here 24 hours a day to provide you with a service you can count on.

Suicide, Homicide or Decomposition

ARKDECON can remove any sign of what happened and any bio-hazards left behind. Let **ARKDECON** restore your home back to its previous state before the crime or death.

Gross Filth, Hoarding or Distressed Properties

Gross filth, hoarding and distressed properties can be a safety issue for Property Owners and Managers. Unknown as to what bio-hazard disease may lurk within the structure. **ARKDECON** is trained and prepared to cleanup this site and leave you with a clean and safe environment. Let **ARKDECON** help in the cleanup and provide a safe place for the next tenant, or family that may occupy the apartment or home.

Industrial or Business Bio-Hazard Accident

OSHA has been around for many years and a large percent of companies and businesses report only minor or no injuries annually. This is a commendable feat. However, we all know accidents happen. **ARKDECON** is a phone call away. Let us help you to decontaminate all accidents that involve bio-hazards such as blood and bodily fluids.

Clandestine Sampling

ARKDECON technicians are trained in the sampling techniques of properties contaminated with methamphetamine. We can provide sampling for pre and post exposure to determine levels of contamination. We only do the sampling; this gives you the client a piece of mind to know this was completed by a third party with no stake in the remediation.

We will work with you, your insurance company, or the state's crime victim's assistance program.

Providing you with a confidential service; protecting your privacy.

WE SPECIALIZE IN:

CRIME-SCENE AND TRAUMA CLEANUP

HUMAN DECOMPOSITION CLEANUP

GROSS FILTH/HOARDING PROPERTY CLEANUP
